**From today's featured article**

*Wie schön leuchtet der Morgenstern* ("How beautifully the morning star shines"), BWV 1, is a church cantata for the Annunciation by Johann Sebastian Bach. He composed his chorale cantata in 1725, based on Philipp Nicolai's 1599 hymn, for the 25 March feast which coincided with Palm Sunday that year. The theme of the hymn suits both occasions, in a spirit of longing expectation of an arrival. The hymn was paraphrased by a contemporary poet who retained its first and last stanzas unchanged, set as a chorale fantasia and the closing chorale, but transformed the inner stanzas into a sequence of alternating recitatives and arias. Bach scored the work for three vocal soloists, a four-part choir and a Baroque instrumental ensemble of two horns, two oboes da caccia, two solo violins (part pictured), strings and continuo. It is the last chorale cantata of his second cantata cycle, begins the Bach-Gesellschaft's 1851 complete edition of his works and is listed as No. 1 in the 1950 Bach-Werke-Verzeichnis. Hello guys Welcome To IT life

Information technology is also a branch of [[computer science]], which can be defined as the overall study of procedure, structure, and the processing of various types of data. As this field continues to evolve across the world, the overall priority and importance has also grown, which is where we begin to see the introduction of computer science-related courses in K-12 education. However, concerns have been raised about this fact that most schools are lacking advanced-placement courses in this field.<ref>Henderson, H. (2017). computer science. In H. Henderson, ''Facts on File science library: Encyclopedia of computer science and technology''. (3rd ed.).</ref>
